

Nutrition Software

Q. Can you name the only high-end nutrition software package in which the ability to create Nutrition Facts Labels comes standard?

A. NutriBase IV (of course).

www.nutribase.com

Nutrition Facts	
Serving Size: 1/2 cup (48.0g)	
Servings Per Container 1	
Amount Per Serving	
Calories 213	Calories from Fat 71
% Daily Value*	
Total Fat 8g	12%
Saturated Fat 3g	17%
Cholesterol Less than 5mg	0%
Sodium 13mg	1%
Total Carbohydrate 33g	11%
Dietary Fiber 4g	14%
Sugars 12g	
Protein 5g	
Vitamin A 0%	Vitamin C 0%
Calcium 5%	Iron 8%

Other nutrition software packages can do this, of course - for several hundred dollars more. For instance, you can purchase Nutritionist Pro nutrition software and their Nutrition Facts Labeling Software for a special combination price of **\$1100**. Visit www.firstdatabank.com for details.

The maker of the Food Processor software recommends that you purchase their Genesis R&D software to produce Nutrition Facts Labels. This software is **\$2999** (\$3599 with all options). Visit www.esha.com for details.

NutriBase v.4.7 - at **\$595** - generates dozens of label formats and lets you save them in BMP, JPG, TIFF, or PDF formats. But you also get the NutriBase Intake Module that allows your clients to record their own intakes and email you their results, the ability to track and graph body fat content, integrated backup and restore, user-customizable Tool Bar, the Nutrient Density View, and a host of other *unique features you won't find in any other product at any price*. Visit us today at www.nutribase.com to see why NutriBase is the obvious choice. :-)

NutriBase... the obvious choice. 800-959-4849
